

## THE PROJECT

In July 2018, Camp Capella broke ground on a significant facilities upgrade project. This project, which has been in the planning stages for many years, will address the increased need for overnight camp, by allowing the camp to serve an additional 70 campers per cabin each season. In past years, Camp Capella has had to turn an increasing number of overnight campers away due to space limitations.

In addition, the project will include the related sitework and necessary utilities, sewer and water, wheelchair-accessible trails, a program pavilion, and an accessible outhouse for campers and visitors.

The facilities upgrade project is estimated to cost approximately \$600,000. Thanks to a generous gift from The Sunshine Lady Foundation, one-third of the costs are covered. In addition, the foundation has offered an additional \$100,000 matching grant for donations of in-kind professional services and materials contributions towards this project, for any contributions made before the end of January 2019.

**What does this mean?** Simply put: we need the help of our friends, neighbors, and community members to earn the matching grant before February 2019 and earn a majority of the funding necessary to complete this project.
